

THREE OPTIONS, ONE GOAL

INTRODUCING THE ANSA TRILOGY OF INCOME FUNDS*

RISK. In a global economy poised to launch into recovery there is still volatility. And when the game gets this tricky, not losing can be just as important as winning. Managing risk is essential. Our new ANSA Trilogy of Income Funds for discerning investors focuses on three markets: Trinidad & Tobago, U.S., and Europe to realize three fundamentals: stability, opportunity and diversity.

And while the time before a recovery is the right time to make a move, it can also be a difficult time to determine what move to make. Our accessible, seasoned experts can make navigating the new market realities as easy as... well... 1,2,3.

At ANSA Merchant Bank, we feel that while it is great to be known as an investment house that wins the game, it is even better to be known as an investment house that changes it.
